SUMMARY

Proactive front-end developer with a passion for technology, delivering elegant web applications for demanding clients. Proven ability to manage time, organize tasks, and translate ideas into effective results. Thrives in both team and self-directed environments, excelling in problem-solving, analysis, and communication.

WORK EXPERIENCE

Frontend Developer - Everrise Technologies pvt ltd   Jul 2024 - Present

Developed and maintained user interfaces for blockchain-based web applications using modern front-end technologies. Implemented responsive design principles for optimal user experience across devices. Collaborated with blockchain developers to integrate front-end applications with smart contracts. Leveraged agile methodologies to deliver high-quality code within project deadlines. Experienced in creating intuitive and user-friendly interfaces for decentralized applications.

PROJECTS

CrossX – Decentralized Cross-Chain Transaction Platform   Link to Demo

Developed CrossX, a decentralized cross-chain transaction platform facilitating seamless transfers across Ethereum, Binance Smart Chain, Polygon, Fantom, Avalanche, and Arbitrum. Empowered users to earn yields through direct, decentralized transactions, eliminating reliance on centralized pools.

DVault - Secure Personnel Locker.   Link to Demo

Developed DVault, a secure personal token locker, implementing a dual-key security mechanism for enhanced asset protection. Supported Ethereum, Binance Smart Chain, Polygon, Fantom, Avalanche, and Arbitrum, enabling users to lock their crypto assets across multiple blockchain networks.

DStreet – A Large NFT Market Place   Link to Demo

Developed DStreet, a large NFT marketplace platform, revolutionizing digital asset trading with a user-friendly interface, secure blockchain technology, and innovative features like "buy-now" and "handshake" for seamless transactions. Empowered creators and collectors with tools to thrive in the NFT space, fostering community through direct engagement. Prioritized security and transparency for all transactions.

EDUCATION

Bachelor of Technology at - Jun 2019 - Jun 2022 (GPA: 6.4)
