SUMMARY

Highly motivated and proactive front-end developer with a passion for creating elegant web applications. Proven ability to deliver exceptional results for demanding clients while managing time effectively and prioritizing tasks. Strong analytical and problem-solving skills, adept at working independently and collaboratively in diverse team environments. Excellent communicator with the ability to translate ideas into tangible outcomes.

WORK EXPERIENCE

- Aug 2024 - Aug 2024

Developed two dynamic web applications to enhance user productivity and experience. Designed and built a fully responsive GPT3 clone using React.js, JavaScript, and Firebase, resulting in a user-friendly and engaging interface. Created a real-time weather dashboard with React.js for data visualization, providing users with up-to-date weather conditions, radar imagery, and forecasts, increasing user engagement by 20

PROJECTS

Fully Responsive Modern UI/UX GPT3 Clone   Link to Demo

Developed a fully responsive modern UI/UX GPT-3 clone website built using React. This application translates conventional language into formal computer code, leveraging OpenAI's GPT-3 model for advanced text generation and comprehension.

Weather Dashboard   Link to Demo

Developed a real-time weather dashboard application, providing users with hourly updates on current weather conditions, day/night variations, and accurate climatic changes. This user-friendly interface is designed for both web and mobile platforms, offering valuable information for various applications, including personal use, professional environments, and meteorological operations.

EDUCATION

Bachelors of Technology at sree dhatta instutions - Aug 2020 - Aug 2023 (Percentage:)
Diploma at Gayathri Institute of Technology   Sciences - May

SKILLS
